# World Champions at the Leaders' Shoulders 

Yesterday's brilliant sunshine was more than matched by some sparkling play on the first day of the Championships.

At the end of the first qualifying session Great Britain's flag was flying highest thanks to the efforts of a pair of former World Champions, double Venice Cup winner Nicola Smith and Junior Champion Justin Hackett. They recorded 67.05\%, the best of the day.

They could not repeat their performance in the evening session and pole position is held by Italy's Gabriella Manara and Dario Attanasio, who followed up their first round score of $60.85 \%$ with an excellent 65.60\%.

They are pursued by two powerful pairs: The Netherlands' Bep Vriend (one half of the reigning Womens World Pairs Champions) and Anton Maas are lying second. Poland's Danuta Hockeker and Apolinary Kowalski, the current World Mixed Champions, are in third place.

It is not only the top of the table that attracts interest at this stage of the tournament.

With only I 20 pairs going forward to the main final, there are sure to be some major casualties. Among the pairs at risk we find a host of famous names, including Auken \& Auken, McGowan \& Hackett, Bessis \& Bessis, Rossano \& Vivaldi, Cronier \& Mari and Rauscheid \& Rohowsky.

They are by no means the only champions finding the going tough and they will all be hoping for a big first session today.

If you are reading this bulletin over breakfast please don't forget that the clocks went forward one hour last night!

## Announcement of the EBL Seniors Committee

## Meeting

| Who: | EBL | Executive members |
| :--- | :--- | :--- |
|  | NCBO | Presidents and delegates interested in Seniors Bridge competitions |
|  | All | Senior players playing in the Mixed Pairs and Teams events in Aachen |

When: Tuesday, March 3I, I998: 10 a.m. to 12 noon.
Where: Eifel room, conference room No. 7 on the 2nd floor of the EUROGRESS

Agenda: I) Future European Seniors Bridge competitions:
a) 5th European Seniors Pairs Championship, March I5-20, 1999 in Warsaw, Poland
b) 3rd European Seniors Teams Championship, June 20-27, 1999 in Malta
2) Promotion of Seniors Bridge competitions in Europe: Open discussion
3) Election of members to the Seniors Committee (to meet in Lille,August 1998, Warsaw, March 1999 and Malta June 1999).

Dr. Nissan T. Rand
Senior Committee, EBL Executive

## Hamman-Wolff partnership ends

by Brent Manley - Reproduced by permission of the IBPA

FCor nearly three decades, Bob Hamman and Bobby Wolff have made up one of the most feared partnerships in the world. With their elimination from the Vanderbilt Knockout Teams the two players will go separate ways.

Hamman \& Wolff have won nine world titles together: seven Bermuda Bowls, America's only Team Olympiad (1988), and the 1974 World Open Pairs. Wolff also won the World Mixed Teams in 1972.

Both players said the break-up had been in the works for some time, despite an amazing run in the Nineties that included four straight victories in the Spingold Knockout Teams and three straight wins in the Reisinger Board-aMatch Teams with the squad sponsored by businessman Nick Nickell.
"We sort of decided it's time to move on," said Hamman. "We've lost a few steps."

The two agreed that the partnership had become stale. Philosophical differences as to bidding style contributed significantly to the move, which was initiated by Hamman. Plans are for Hamman,

59, to stay with the Nickell team and play with Paul Soloway, a former partner and teammate from the fabled Aces teams. Wolff's future is less certain.
"There are some possibilities," Wolff said in late February, "but I'm not thinking about them now."

Wolff said he was surprised by the move, especially considering the team's success of late. The Nickell team - including Richard Freeman, Jeff Meckstroth and Eric Rodwell - finished second to France in the 1997 Bermuda Bowl in Hammamet, Tunisia. They won the title in 1995.

Certainly the Nickell team's record in the Nineties is phenomenal. Besides bringing home the 1995 Bermuda Bowl, the squad -- anchored by Hamman and Wolff - won the Spingold in 1993, 1994, 1995 and 1996 and the Reisinger, arguably the toughest event in bridge, in 1993, 1994 and I995.

Wolff, 64, was an original member of the Aces, the professional team put together by Ira Corn in 1968. Hamman joined the squad in 1969, and he and Wolff began playing together in 1972.

## Vanderbilt Round of 16

on Baldursson and Magnus Magnusson of Iceland, playing in the team led by George Rapee (John Solodar, Billy Eisenberg, Russ Arnold) took over the number 2 seed by beating Marshall Miles 144-I36. In the Round of 32 Miles had beaten the Nickell team. The other seven teams to make the Round of 8 were all as seeded.

Adam Zmudzinski and Cezary Balicki, Marcin Lesniewski and Marek Szymanowski all of Poland are seeded 4 in the team led by Grant Baze with Tipton Golias.

Lorenzo Lauria and Alfredo Versace of Italy are seeded 6 in the team led by George Jacobs. Geir Helgemo of Norway and Tony Forrester of Britain are seeded 8 in the team led by Rita Shugart who partners Andrew Robson of Britain.

## Olympiad Contract signed for the Netherlands

0n Friday 27th March in the Maastricht Town Hall in the presence of the Lord Mayor, José Damiani, President of the World Bridge Federation signed the contract for the Teams Olympiad of the year 2000 with the Dutch Bridge Federation. Signing for the Dutch was its President, Laurens Hoedemaker and its Treasurer Ton Valk. The Olympiad will be held in the Maastricht European Congress Centre from 26th August to 9th September 2000.

## Commons beat Lords

Your Assistant Editor arrived in Aachen hotfoot from the annual bridge match between the two British Parliaments. This was won by the Commons by the aggregate score of 1289010710. In the 24 -year history of the event the Lords leads 13-11.Your Editor had the job of choosing the Player of the Match which went to the first member of the Liberal Democrat party ever to make the Parliamentary bridge team.

## PAIRS SESSION I

## Boards I-8

We have managed to cover all 32 boards that were in play during the first session. They are presented in sets of eight boards. One facet to good reporting is to be in the right place at the right time, and as you will see, the staff was frequently well positioned.The editor's instructions were 'make it entertaining' and the players who came under the microscope co-operated in full measure. We hope you enjoy it!

Sabine Auken of Germany is a former winner of this event, so we selected her table to watch the first few boards of the championship. In the past the event has been for partnerships from one nation only, but now it is trans-national, giving Sabine a chance to partner her husband, Jens Auken of Denmark.

They began their tournament with a bang, indeed one might call it an explosion... a result so horrendous that we can safely say they were bottom of the field after Board I:

${ }^{(1)}$ Articial game/forcing relay
A glance at the diagram shows that North/South have nine winners in the black suits. West, Daniel Barbaroux of France, made a speculative double of 3 NT to ask for a heart lead, dummy's first bid suit. Jens redoubled, describing it later as "In doubt". This was an accurate description in one sense... it was Sabine who was in doubt. "Undiscussed" was her reply when West enquired the meaning of the redouble.

Nine tricks were duly made in Three Notrumps Redoubled but, unfortunately for our champions, by the wrong side! East led $\$ 10$, covered by jack and queen. A diamond came back, and

## Sabine Auken - Patrick Jourdain

declarer ducked the next heart, the nine. East cashed her diamonds, and led another heart. The defence came to four diamonds and five hearts and a score of 2800 . So, if the Aukens make the final, you know where they started. And the result was so bizarre that Sabine even managed a smile.
"The advantage of Pairs," said your Bulletin reporter, trying to be encouraging, "is that a couple of extra tricks on the following deals might see you back to average." And so it proved.

A simple and uninformative auction with a lot of matchpoints resting on the lead. If South chooses a red card declarer makes II tricks, as trumps are drawn, dummy's clubs go away on the diamonds, and declarer ruffs her singleton club! But Sabine led a spade, and Jens quickly cashed three tricks to give the partnership an above average score.

The next board completed the move back to average:

East-West reached a reasonable Four Hearts, and Sabine made a sharp double. She began with three rounds of spades, reducing declarer to four trumps. Double-dummy the contract can be made. East has to run the ten of clubs and then later ruff a third club with the ace of trumps. If you start with a club to the king and a club to the ten and jack, you cannot make, as South withholds her ace of clubs on the third round. You can ruff one club high, but the defence come to another trick later because North is standing by to over-ruff the dummy. Declarer actually did worse by drawing two rounds of trumps with the ace and king, and then following with a club to the king and a club to the ten and jack. A diamond switch was won in dummy and declarer came back to hand with a diamond ruff to take a ruffing finesse in clubs, South carefully not covering. Declarer threw a diamond from the dummy, but when North ruffed he was able to remove declarer's last trump by playing a third diamond. The club suit was ruffed good, but at trick 13 the lead was in dummy and the defence made a diamond. +500 must have been a near top for the Aukens.

Board 4 was thrown in, as it must have been at many tables, so let us move quickly on...

## Steen Moller gives us the first story of Board 5

A new British-Israeli combination was seen when the pairs started yesterday. Nissan Rand's normal mixed-partner was not able to go to Germany, but he was far from disadvantaged when, instead, he got to play with Nevena Senior (the former European Ladies Pairs champion, then Nevena Deleva). Mr. Rand is used to winning titles for the over 55 s , but he has no chance this time as Mrs. Senior is much too young for that. He must content himself to win a title with a Senior, not a senior. The new pair did not get the best of starts against a German pair, when they reached this 3 NT on the very first hand they ever played together:

West got off to a very good lead when he led the declarer's suit, hearts. South ducked the $\vee \mathrm{J}$, but captured the queen with the ace at trick two. She now played the $\%$ and ducked when West covered with the king. Unable to continue hearts West found the dramatic and effective switch to the $\Phi \mathrm{K}$. Dummy took the ace and played another spade. East went up with the queen and played her last heart to South's king. South unblocked the J and played the

She thought for a while when West followed low, but finally decided that is was too risky to finesse the nine. She then cashed dummy's last spade squeezing West in three suits, but West did not show any sign off distress and blanked his $\forall \mathrm{K}$ smoothly. When the clubs did not break, South took the diamond finesse, as who would not, and West scored up the remaining tricks.

Two down and an awful result for Britain/lsrael.
We take up the Auken story again:
At the Auken's table Sabine reached 3NT as South without revealing possession of a heart suit, so West, Dries Swinkels of the Netherlands, made the natural lead of $\vee \mathrm{J}$. South won, and led j , covered and ducked. West continued with a heart to the queen and ace. When the clubs did not break Sabine
cleared the suit, leaving West endplayed. He exited with $\diamond$ K. When East came in with a spade, a third heart put the contract one off, a normal enough result.

| Dble | All Pass |  |  |

When Terraneo made a takeout double of 2 on his flat 14 count, Weigkricht took a shot at $4 \checkmark$. The double was quick and confident and Weigkricht ran to the safety of her longest suit. Gwinner doubled again and led a spade. Weigkricht ruffed and played ace and king of trumps followed by a low club. Gwinner won that, cashed the $\diamond Q$ and continued spades. Weigkricht ruffed then played ace and a second heart, badly needing to get them right as she was down to her last trump. There was a hitch on her right before playing low and she duly went up with the queen then played a third round. That was down two for 300; not great with 4s normally going one down.

The Auken's stayed lower:

| West <br> Swinkels | North <br> Jens | East <br> Swinkels | South <br> Sabine |

| Dble | Pass | Pass | $4 \diamond$ |
| Dble | All Pass |  |  |

If the diamonds were breaking 2-2 there would be nine tricks for North-South in 3NT on a spade lead, but whenWest doubled Sabine wisely took refuge in Four Diamonds. This was doubled and lost the obvious four tricks for -I00 but a better than average result for the Aukens.

On Board 7 they stopped in 4NT which proved the right spot when the clubs did not come in. . I I tricks. On Board 8 East-West reached the standard Four Spades, and, as Sabine avoided leading a diamond at any stage this was held to ten tricks for a normal result.

## West

Buchlev

The German/Swiss partnership of Buchlev/Nikitine competed to 3 万. Best is a trump lead and perhaps there is a good case for finding it given that North expects his side to hold the balance of the high cards. Terraneo actually led a diamond and Buchlev won the ace, played ace and ruffed a club, then ace of spades and a spade ruff. Next came another club ruff, cash the $\diamond K$ and ruff a diamond high. Another club was ruffed and overruffed and Weigkricht played a top diamond. Buchlev ruffed high and played his last club. Terraneo ruffed but Buchlev had to make another trump trick in the ending for a useful +170 .

After a pass by West, Terraneo opened another thin canapé 14. Weigkricht responded 2 and bid 3NT over the raise to 3\%. She survived the opening lead, a low diamond, and had to decide whether to gamble on an early spade to the king or settle for cashing out and hoping for something good to happen in the ending. Her choice was to cash the clubs and diamonds, which gave the possibility of the $\diamond$ J falling. It didn't, of course. On the clubs, East threw heart, spade, heart, and West spade, heart, spade. That meant that the defenders had kept five winners and the necessary communications to cash them. A spade towards the king might have put the defence under some pressure - East must rise with the ace and switch to a low heart and West must win the nine with his ace. In practice, Weigkricht exited with a heart to the nine and ten. Bohnsack cashed the $\diamond J$ and $\varangle A$ and led a spade to his partner for the last two tricks; one down for -I00.

Having not brought the Austrians much luck, we thought it was time to take our leave and give them a chance to recover.

Boards 13 through 26 were watched by Great Britain's Marc Smith.

Board 13 looked exciting from behind the North player who was looking at Ace-King to nine spades and another AceKing, but our N/S pair quickly reached Six Spades as did most other pairs. The spotlight turned on Switzerland's Mrs. Farina, and when she found the heart lead to her partner's Ace that was +1430 only for $N / S$.

The Two Club overcall was natural and Paul Chemla judged well to raise with two small. The Swiss West was faced with a tough matchpoint decision. When he elected to bid on despite the poor quality of his suit, East was unsure of the partnership's combined assets and raised to the poor game.

North led a club and declarer ducked to the Queen. Declarer covered the Queen of diamonds return and South ruffed the next round of the suit and exited the King of clubs. Declarer entered his hand with the Ace of hearts and when he then misguessed the spade, losing to the now-singleton Queen, he was two down for N/S +100 and an above-average board for the French.

North led a diamond and South switched to a spade at trick two. Warned by the double of Three Spades though, declarer was not tempted to play South for the King. So, he rose with the Ace and ran six trump tricks, playing either for clubs to come in for four tricks (as here) or for North to be squeezed in the black suits if he held J-x-x-x clubs along with the Spade King.

E/W +I430 more than compensated for the previous hand, and Mr. Gaede also earned a "Well Done" from l'enfant terrible to take back to Switzerland with him.

French great Jean-Paul Meyer also came into the Bulletin office to report the bidding and play on this hand, and it was he that questioned the wisdom of the Great Man's double of Three Spades.

For Boards 17-22 we concentrate on action at the table with Germany's Pony Nehmert and Andreas Holowski sitting N/S.

After a club lead to the King, South had to decide between returning the singleton in her partner's suit and forcing declarer to ruff one of dummy's club winners. Nehmert returned a heart, and now the Icelandic declarer could win the Ace, draw trumps in two rounds ending in dummy, ruff out South's second high club, return to dummy with a diamond ruff and pitch all three losing hearts on dummy's club winners.

N/S -480 was a terrible score, although -450 would not have scored well on the traveller we saw.

Some of the matchpoints came back the Germans' way on the companion board (I8) when the Icelandic pair overstretched to Four Diamonds (going one down) after Nehmert/Holowski had bid to Three Hearts, which would also have failed.

South led the nine of Diamonds and Holowski cashed Ace and King before switching to the Queen of Hearts. Declarer ducked and Holowski switched to a trump. Declarer cashed four rounds as South discarded two clubs (giving count). When declarer tried the effect of the Jack of clubs, overtaken by dummy's Queen, the roof fell in. North won his King and played the Nine of Hearts, but when that held North still had a diamond exit and thus declarer was limited to just her six trump tricks.

N/S +800 was a top by some distance on the traveller we saw at the table.

We all know that bridge is a symmetrical game - slam hands always come along in pairs, don't they? Curiously, this companion board bears a remarkable similarity to the previous hand. Once again, E/W were dealt a strong six-card and K-x-x-x in a side suit opposite little more than an Ace. Would they have learned the lesson suggested by the poor result on Board 19?

After North's trump lead, declarer found himself in a very similar position to that faced by his partner on the previous board. This time, he did remember to cash dummy's Ace to go with his six trump tricks. N/S +200 and perhaps E/W may now realise that 6+I do not equal 9 .

N/S presumably failed to double this time because they erroneously thought Christmas only came once a year. They now know better.

With the Germans on a roll, Spain's Leiva \& Torres chose an unfortunate time to take these particular E/W seats.

## All Pass

At this point, Pony Nehmert commented, "See, we're a typical Mixed Pair. We don't even speak the same language."

Same language or not,Andreas Holowski had chosen a very suitable time to open his off-centre No-Trump. It was up to Mrs. Leiva to rescue her side by finding the club lead from A-Jx , but for some obscure reason she chose a spade from J-10-9-7-4 so that was N/S +630 and another fine board for the home pair.

Seeing how well they were going at the time, perhaps the

Germans were unfortunate to meet one of the few pairs in the field playing Strong Twos. Although Two Hearts made eleven tricks for N/S -200, the scoresheet revealed a fairly large number of N/S pairs scoring -50 or - 100 in Five Diamonds (doubled or not). Very few tables managed to produce the par result of $6 \diamond-x-2$ but the Germans still scored above average on the board.

For Boards 23-26 we moved to a table at which both members of the N/S partnership were World Champions - Great Britain's Nicola Smith (Venice Cup winner and Ladies' World Individual champion) and Justin Hackett (former world Junior champion). After the first session, Smith/Hackett were leading the field. These boards were not unhelpful.

On Board 23, Smith played INT from the South seat. Having Passed her 10 -count as dealer, she then balanced after One Heart was passed back to her. The heart lead ran to declarer's Queen, and after playing a club to dummy's King, she could claim nine tricks.

It is far from clear what South should do at her second turn. Typical of her aggressive style, Smith elected to force to game. Hackett showed his diamond values and then cue-bid on the way to four Spades.

Franco Broccoli led a top club and switched to a diamond. Smith ducked to East's King, won the trump switch and ruffed a club with dummy's last trump. Next came the Ace of Hearts, and then the Queen, ruffed in hand. When West's King came clattering down, declarer drew trumps and claimed eleven tricks once diamonds proved to be 3-3.

Board 26 was all about Trick One. The Italian E/W pair reached the standard Four Spades after a Weak Two opening. Smith chose to lead a heart and now declarer had to guess with $\mathrm{Q}-10-\mathrm{x}$ in dummy and $A-x-x$ in hand. When she guessed "Queen" only to find that Smith had led from J-x-x-x-x it meant that the leaders had avoided conceding a vital overtrick.

Board 27 was misboarded at the table we were watching. Unfortunately, the players were so distracted by this turn of events that they contrived to perfom in such amnner on Board 28 that events are unsuitable for a family magazine.

Board 29 was a typical Pairs hand where so much depends on the layout of a side-suit. East-West have a borderline 3NT. As the clubs come in, you make it, and the bolder pairs were rewarded. Board 30 was everyones Four Hearts by East making II.A few North-South pairs may have found the sacrifice
in Four Spades, earning an excellent score.Alternatively a dou-ble-dummy defence holds Four Hearts to ten tricks: underlead the ace-king of spades at trick one to get a club back before the diamonds are set up for declarer! If anyone found that please let us know.

For the last two boards we take a look at a confrontation between Poland and Germany.

The German pair had much the better of the auction when South declined to contest the part score. The opening lead was the 4 which was taken by dummy's queen. Declarer now played the three of hearts and North missed his chance to defeat the contract when he played low. East won with the queen and went after the clubs. South took her ace at once and played the $\mathbf{~ K}$, ducked, and another spade. Declarer won and cashed her club tricks. North was reduced to discarding the $\diamond$ AK but was still endplayed by the diamond exit which forced him to lead into the heart tenace. +120 was a tremendous result for the German pair.

On our final board North-South played in $4 \circlearrowleft$. West led his singleton spade and declarer was soon one down for what proved to be an average result.

## Bookstall

Merle Schneeweis' company MBL provides the facility at these Championships. It is located on the ground floor near the entrance to the playing rooms. It will be open one hour before the start of each session. A comprehensive range of bridge items includes the latest books and software. You will also find Championship T shirts are available for DM23.

## Double Promotion

The leaders at the end of the first session were Justin Hackett and Nicola Smith of Britain. If this deal from the Second Session is anything to go by, they were heading for another good score:

|  | Board 14 <br> Love All. Dealer East |  |  |

| 20 | All Pass |  |  |

West's overcall would not meet with universal approval, but he had an awkward call, and the final contract looked sensible. Nicola did not feel compelled to re-open with a double as her club values implied partner could not have a penalty double.

West has four top losers outside trumps, and, superficially, one loser in the trump suit itself.

The defence began with three rounds of spades. Strangely this promotes a second trump for the defence whatever West does. Best is to ruff with the jack and play ace and another trump, for one down. West actually chose to ruff with the seven, and was over-ruffed by North's nine. A diamond to the ace was followed by a fourth spade. This promoted a third trump trick for the defence whatever West did. This time West did ruff with the jack.

The situation in the trump suit was unusual; superficially if declarer enters dummy with a diamond to lead the queen, it is covered by king and ace, then the eight loses to the ten but dummy's five is big enough to draw South's four. However, if you check it out you find that South can play the fifth spade and declarer cannot cope.

After the trump jack held at trick five West correctly played on hearts, then reached dummy on the second round of diamonds. However, instead of playing the queen or eight of trumps from dummy, he led the five, and, hoping the remaining trumps were 2-2, played ace and another. Nicola was able to draw declarer's last trump and make the fifth spade. Three off was another excellent result for the leaders.

# Die Deutsche Homepaye 

## Heldensagen

Das Turnier hat gerade erst begonnen, und niemand kann voraussagen, welche Paare des Gastgeberlandes sich ins Finale spielen werden. Aus diesem Grunde wird sich der erste Artikel über die Ergebnisse der Deutschen auf einige spannende Situationen beschränken, die von den betreffenden "Helden" in beeindruckender Weise gemeistert wurden.

Zunächst ein Kuriosum, dann ein interessanter technischer Aspekt am Tisch von Barbara Stawowy und Dr. Andreas Kirmse, einem Paar, das schon 1993 Studenten EU-Meister wurde.

Stellen Sie sich vor, Sie sind Nord und halten (in Board I):
$\triangle A B x$
$\nabla x$
$\diamond x \times x$
\& K $9 \times x \times$
Ob es Ihnen gefällt oder nicht, Sie eröffnen I \& Ihr linker Gegner bietet I $\diamond$, der Partner kontriert negativ und Ihr rechter Gegner sperrt mit $4 \diamond$. Sie fühlen sich gerne gesperrt und passen, aber Ihr Partner findet ein weiteres Kontra. Was bieten Sie?

| West | Nord <br> Dr.Kirmse | Ost | Süd <br> Stawowy |
| :---: | :---: | :---: | :---: |
| $4 \diamond$ | $1 母$ | $1 \diamond$ | Kontra |
| Pass | Pass | Pass | Kontra |

Haben Sie sich wie Andreas Kirmse für 5 entschieden? Dann werden zu Ihrem großen Erstaunen die Gegner die erste drei (!) Stiche in Karo kassieren. Ost hatte eine Viererfarbe $\diamond$ A K D $\times$ zwischengereizt und West mit $\diamond x \times \times$ auf Viererstufe gesperrt. Allen LAW-Fetischisten mag sich an dieser Stelle wahrscheinlich der Magen umdrehen, aber so ist das Leben eben. Als die Gegner in ihrer Euphorie dann aber einen weiteren Faller liegen ließen, standen Nord/Süd plötzlich wieder mit einem $80 \%$ Board da! Wer zuletzt lacht...

Gute Technik hinterläßt oftmals einen hilflosen Gegner, der tischbeißender Weise zum Gehilfen der anderen Seite wird.

$\diamond$ KB8764
\& 72
- 52
-K864
$\diamond 93$
-KD 1085

Nord wurde zum Alleinspieler in 3 SA und erhielt Pik-Angriff. Nach Abzug aller Karo- und Pikstiche hat der Gegner keine Chance mehr, etwas richtig zu machen und das Ergebnis zu verbessern. In den letzten vier Karten konnte es sich keiner der Gegner leisten, eine Coeur-Figur blank zu stellen ohne einen Stich aufzugeben, so hielt West $\vee$ K 8 und Ost $\vee$ B 9. Der Alleinspiel-Konter ist nun, in Treff einfach auszusteigen. Die Gegner kassieren zwei schwarze Stiche, müssen aber anschließend Nord wieder in die Coeurs hineinspielen. Endergebnis: Zwei Überstiche in 3 SA und zwei entnervte Gegner.

Wechseln wir den Tisch und schauen hinüber zu Michael Gromöller und seiner Mixed-Partnerin Miriam Browne. Es roch nach Schlemm, und einen solchen kontrolliert mit nur 26 Punkten auszureizen, ist noch immer eine Bulletin-Erwähnung wert.

Board 16. O/W in Gefahr. Teiler West.

2 SA zeigte eine starke Coeur-Hebung und fragte den Eröffner nach einer Kürze. $3 \diamond$ war Karo-Kürze und $3 \triangleleft$ fragte nach Assen und Karo-Chicane. Wests 4 -Antwort hieß 0 oder 3 von 5 Assen und Karo-Single. Da Vorsicht die Mutter der Porzellankiste ist, reizte Ost nun $4 \odot$, für den Fall, daß West keine einzige Schlüsselkarte hielt. $5 \bigcirc$ wiederum zeigte 3 Schlüsselkarten, aber keinen König außerhalb. Jetzt konnte Ost den Schlemm ansagen.

West erhielt Pik-Angriff, legte die Dame (!) und claimte. Da die Treffs ebenfalls 3-3 standen, waren Ost/West 12 Stiche hier in keinem Fall zu nehmen. Dennoch, ein guter Riecher in Reizung und Abspie!!

Und zu guter Letzt, noch ein Gegenspiel aus dem Hause von Arnim - Reps, das ebenfalls nicht alltäglich genannt werden kann:

Board 23. Alle in Gefahr. Teiler Süd.

¢ A 43
ค D 52
$\diamond$ KB962
\& 87

Nord/Süd waren in gelandet, ein Karo-Teilkontrakt hätte Ihnen sicherlich mehr Spaß gebracht, aber auch 3 \& mußten erst noch geschlagen werden.

Daniela von Arnim spielte $\vee 4$ aus, Süd gab klein zu, West spielte $\vee 10$ und Nord duckte. Klaus Reps setzte jetzt mit 8 K (!!!) fort, und der Alleinspieler gewann mit dem As in seiner Hand. Um an den Tisch zu kommen, ohne den Pik-Verlierer aufzureißen, übernahm Süd Nords $\diamond D$ mit dem König und zurück kam 7. West stieg mit A, gab Ost einen CoeurSchnapper, erhielt einen Karo-Schnapper und spielte die vierte Coeurrunde. Der Surcoup für Osts s B konnte nun nicht mehr verhindert werden und 3 fielen einmal. "Merrimac meets trump promotion" - ebenfalls kein schlechter Beginn in das Turnier!

## "The sun always shines on TV'

Der FernsehsenderWDR wird live und ausführlich von den 5. Europäischen Mixed-Meisterschaften aus Aachen berichten. Die TV-Crew wird am Montag filmen, aber sie besuchte das EUROGRESS schon am Freitagnachmittag, um einen 30 Sekunden-Spot zu drehen, der in den Abendnachrichten das Turnier ankündigte.

Da die WDR Reporterin für ihre Aufnahmen natürlich auch etwas Bridge zu sehen bekommen wollte, wurde in aller Eile eine illustre Viererrunde zusammengestellt, die dann unzählige Male mischte und teilte, das Tableau mit den Geboten immer wieder geduldig und dekorativ hin und her schob und ein paar Hände in Zeitlupen-Tempo reizte und spielte, bis alles "im Kasten" war.

Die Chance TV Star zu werden nutzend, nahmen auf West und Süd die Bulletin- "Macher" Horton und Back Platz, die Nord- und Ostpositionen wurde eingenommen von keinen Geringeren als der Organisatorin der Meisterschaften,Anneliese Schmidt-Bott und der Damen-Weltmeisterin Sabine Auken.

Während Schmidt-Bott - Back sich wortlos und somit schnell auf FORUM D verständigten, ereignete sich auf der anderen Achse ein kurzer, aber folgenschwerer Dialog. Sabine Auken wandte sich an ihren Partner Horton: "Welches System?" Als die Antwort "Precision" kam, lachten alle laut, und dabei blieb es ... Schon bald hatten die Spieler die Chance im Fernsehen zu glänzen:

## Keiner in Gefahr, Teiler Ost

$\int x \times x$
$\diamond x^{x} \times x \times x$
\& $D x$

West

Horton \begin{tabular}{c}
Nord <br>
Schmidt-Bott

 

Ost <br>
Auken <br>
$1 \triangleq$
\end{tabular}

Als Horton mit $5 \diamond$ einen weiteren Versuch in Richtung Schlemm unternahm, war es einfach für Sabine Auken, mit all den noch unerwähnten Kontrollen in Treff und Coeur in 6 zu springen.

Mark Hortons $5 \diamond$ waren wohl überlegt. Er kannte bereits neun Karten seiner Partnerin und wußte, daß sie ihre Punkte für den Sprung in 3 in Coeur und Treff halten mußte. Die kritischste Haltung für inn wäre sicherlich $\vee A D$ und $K$ gewesen, aber dann hätte Ost wohl $4 \bigcirc$ ge-cuebiddet und er hätte sich die Sache noch einmal überlegen können. Da Sabine Auken aber 4 gereizt hatte, setzte Horton konfident auf Treff-Erstrundenkontrolle bei Ost, so daß dank $\diamond$ A K D keinerlei Un-terfarb-Verlierer zu erkennen waren und der Schlemm gute Chancen haben mußte.

Nord spielte ein kleines Karo aus, und der Alleinspieler stand vor der nicht allzu schweren Aufgabe Trümpfe zu ziehen, die Coeurs zu entwickeln und die Treffverlierer auf die hohen Karos abzuwerfen. Ein Schlemm - clever gereizt und souverän erfüllt. Welch ein Start in eine glanzvolle TV-Karriere!
